

Reception Project Homework

Which was the biggest dinosaur?

Spring 1

Our topic this half-term is called 'Which is the biggest dinosaur?' The children will be learning all about dinosaurs, their key features, their habitat, diet and hunting techniques.

Please complete the homework choices below during Spring 1 and send them as in soon as they are complete. While restrictions are in place, the best way to submit your child's homework is **to send a photo through ClassDojo**. You could send a photograph of a model or picture, or a video through **ClassDojo**.

Tasks can be completed in a variety of ways - be as creative as you want!

Design and make a dinosaur egg. What will you make it out of? How big will it be? What colour will it be? Try to be as creative as possible.	Use the computer or iPad to find out different facts about your favourite type of dinosaur. Your grown up could help you record the facts.	Try to find out if there are any other living creatures that hatch from an egg. Draw or paint living creatures that hatch from an egg.
